Assistant Professor Position in Organic Chemistry

Employer: Faculty of Science, Charles University, Prague

The Department of Organic Chemistry at the Faculty of Science, Charles University in Prague (Czech Republic), invites applications for a full-time Assistant Professor position. We seek outstanding candidates conducting innovative research in any area related to organic chemistry. The successful candidate will be expected to develop an independent research program and contribute to the department's teaching activities at both undergraduate and graduate levels.

Benefits:

- Tenure-track position
- Competitive salary
- Academic environment of a research university located in the stunning city of Prague (with a vibrant atmosphere and excellent quality of life)
- 8 weeks paid leave of absence (holidays) per year
- Start-up financial support from the Department
- Language courses

Qualifications:

- PhD in organic chemistry, or a related discipline (preferably received after July 1, 2021)
- Postdoctoral research experience
- Strong research record with the potential to establish an internationally recognized research program
- A commitment to high-quality teaching and mentorship at all levels

Position Details:

- The initial appointment will be on a contract basis for up to five years, with the expectation of extension based on evaluation
- Application deadline: April 30th, 2025
- Start date: January 1st, 2026 (negotiable)

Application Requirements:

• Applicants should submit the following documents:

Cover letter (1 page)

Structured CV (including contact details for three independent references)

Research proposal (max. 4 pages)

Teaching statement (max. 1 page)

- For inquiries or further details, please contact us at the following e-mail address: orgchem@natur.cuni.cz
- Suitable candidates will be contacted to arrange an interview to be held in person at the
 Department of Organic Chemistry in May-June, 2025. Please note that if you are not
 contacted within 6 weeks from the application deadline, we will give preference to
 candidates who meet the selection criteria more closely. Thank you for your understanding.
