# Eduroam settings for Android v4.1.1 Jelly Bean

On the Home screen select the Settings icon. Turn the Wi-Fi on with slider and click on the "Wi-Fi" sign.

Select the network **eduroam**. Then set up a connection as shown below:

Click on **Connect** and then if you're in the eduroam wireless network range, you should connect successfully. If it were still a problem, try to turn the mobile phone's wireless off/on or turn off/on the mobile phone.

Users of the eduroam service must abide by Charles University's Code of Conduct, and any equivalent policies at visited institutions, in addition to the eduroam policy.

It is the responsibility of the user to ensure their device is password protected to secure any saved credentials stored on the machine used for accessing eduroam. This may be in the form of a passcode on a mobile apple device for example, or windows user account equivalent.

If you are having trouble connecting to eduroam using these instructions please contact the Faculty Help Desk on http://helpdesk.natur.cuni.cz.
